

TRU-GAS

Gas Service by Gas Professionals

JULY 8, 2011

Dear Customer:

Thank you for your business. In order to help you and your employees to use our product in the safest possible manner, we have enclosed an MSDS (Material Safety Data Sheet) which has been produced by the National Propane Gas Association. This MSDS information is provided under Tru-Gas' policy of communication to our customers health, safety and environmental protection necessary to ensure safe handling and use of our product. This is in compliance with the Occupational Safety and Health Administration (OSHA) Hazard Communication Standard which became effective November 25, 1985. This information should be made available to any Health and Safety personnel in your firm as well as to all employees handling propane.

If any modifications or changes are made to your propane installation, please notify us so that we may perform a free safety inspection of the system.

PLEASE COMPLETE THE BOTTOM PORTION OF THIS LETTER AND RETURN IT TO US BY JULY 25, 2011, via fax (608-781-1076), e-mail (lacrosse@inergyservices.com) or mail (P O Box 2213, La Crosse WI 54602).

Sincerely,

Gary Lafky

Manager

THIRD & FINAL NOTICE
